The 19th International Conference on Advanced Data Mining and Applications (ADMA2023)

Notice

Dear_____,

The 19th International Conference on Advanced Data Mining and Applications (ADMA2023) will be held in Shenyang, China, from 21 to 23 August 2023. The conference aims to explore advanced technologies in the field of data mining and applications, covering applications, algorithms, software and systems, as well as different application disciplines with potential in the field of data mining, such as social network mining, intelligent transportation, financial technology, smart manufacturing, smartphones, biomedical, green computing, etc. The conference will bring together data mining experts from around the world to provide a leading platform for disseminating original research results, sharing research experiences, and promoting close interaction and collaboration between practitioners and researchers in the field of data mining. The programme of the conference is as follows, and we welcome researchers and developers as well as teachers and students from home and abroad who are committed to data mining and applications and other related fields to come together and learn together!

Conference Programme：

Meeting Time and Venue	Calendar
21 August 2023, International Exchange Centre, Northeastern University, Shenyang, China	Conference Check-in
22 August 2023, International Exchange Centre, Northeastern University, Shenyang, China	Conference Keynote / Invited / Paper Presentations
23 August 2023, International Exchange Centre, Northeastern University, Shenyang, China	Invited Presentations / Paper Presentations / Forums
